

45% of tours, activities and
excursions are booked online.

rezbs

Online Tour Booking and Management for The Travel Industry

the new way to maximise your potential

rezbs is a fully featured online tour booking and management system, offering tour operators maximise net profit and streamline operations.

Take online bookings in minutes, manage bookings, commissions, agents daily trip sheets and more.

Stay connected to your business with robust reports and know your revenue is safe with payment integration direct to your bank account.

**POWERBOAT
ADVENTURES**

“Since switching to rezbs, our net profit has been steadily increasing. Not only is the online booking system essential in today’s world, the administration system has streamlined our back office operations massively, further increasing our margins.”

*Capt. Nigel Bower,
President,
Powerboat Adventures Ltd*

Tour Booking & Management

your business. your money. your bank.

Jumping through hoops with third party payment systems just to get your own money is a thing of the past.

rezbs integrates directly with all the major banks in The Bahamas - tie your merchant account to your rezbs account, and your customer payments land in your account the moment your bank processes them.

FirstCaribbean
International Bank

at a glance

Integrated with all major Bahamian Banks

Multiple payment gateway options

Secure 2048 bit encrypted transactions.

Automatic VAT/Sales Tax calculations

Fully VAT compliant sales receipts emailed on confirmation

Tour Booking & Management Platform

secure for customers. secure for you.

We take security seriously.

For your customers, that means we're running a fully encrypted system, and never store credit card information.

For your business, that means we have multiple offsite backups of all critical data, created in real time to ensure downtime is no time.

at a glance

- PCI certified servers
- Regular vulnerability testing
- Uptime monitoring
- Multiple off-site backup locations
- Security hardened servers
- Integrated IP blocking security feature
- SSL/TLS Encryption
- Multiple Administrator levels for account security
- Customer credit card data never stored online

one system. everywhere.

rezbs is designed for people on the move.

Wherever your customers are, and whatever they use to access the web, they can make their booking quickly and easily.

And wherever *you* are, if you have an internet connection, you and your team can manage every part of your business, from your desk, from your tablet, from your phone.

at a glance
